Allotted time in the lab for specific questions and group/individual help. Also very available and helpful during TA sessions/office hours/review sessions

Willingness to help with lab problems.

She would always check to make sure the class was ready to move on before doing so.

She emailed us links to resources at times.

She went out of her way and stayed after class to answer my questions.

She was knowledgeable about the material and was very helpful at explaining it to the class and answering individual questions.

Excellent help sessions and always took the time to help.

She answered all our questions thoroughly and gave us encouragement for all our tests. Would love to see more TA's this dedicated.

She was quick to answering emails and always helped when I had questions.

Took the time to answer everyone's questions and stayed after class, had enough office hours too. Study sessions were very helpful.

She helped a lot before the exams.

Q11 - What might the TA do to improve your learning experience in the course?

What might the TA do to improve your learning experience in the course?

Her additional PowerPoints on difficult topics were very helpful. Maybe ask if there is a topic students are struggling with and make a PowerPoint combining theory/excel

The Canvas calendar is something all of my other courses utilized. I don't think that is a decision made by TA's however.

Come better prepared to answer different questions. And slow down when explaining something.

Add more explanation to problems we get wrong.

None.

OMG, nothing keep up the good work!

Maybe slow down a bit in the lab sessions

Try explaining some lecture material or lab material in simpler ways and try to slow down when doing excel steps up on the screen.

Just make the lab a little bit more engaging.
